From France to Indonesia, young engineer Corentin de Chatelperron and his DIY crew sail their catamaran *Nomad of the Seas* on a quest for self-sufficiency. The aim of their low-tech world tour is to find simple solutions to universal problems.

LIST OF EPISODES (1 STOPOVER = 1 EPISODE):

FRANCE: Welcome on board, for what promises to be a great adventure!

MOROCCO: All about water desalination methods.

CAPE VERDE: The challenge of hydroponics and aeroponics - or how to plant and harvest soil-free crops.

SENEGAL : In search of wood-free fuel: a carbon made from green plants.

TOGO: How to recycle washed up electronic waste into a wind turbine.

MADAGASCAR (1/2): Let's stock up on vitamins and minerals, thanks to spirulina and the island's medicinal plants.

MADAGASCAR (2/2): How to recycle aluminium... and make tools for the rest of the expedition.

MASCARENE ISLANDS: Testing various ancestral

methods of preserving food that can be used on board.

INDIA (1/2): The kingdom of low-tech! And how to transform waste into biogas.

SRI LANKA: Meeting the inventors of plastic pyrolysis, a low technology method that makes fuel out of plastic waste.

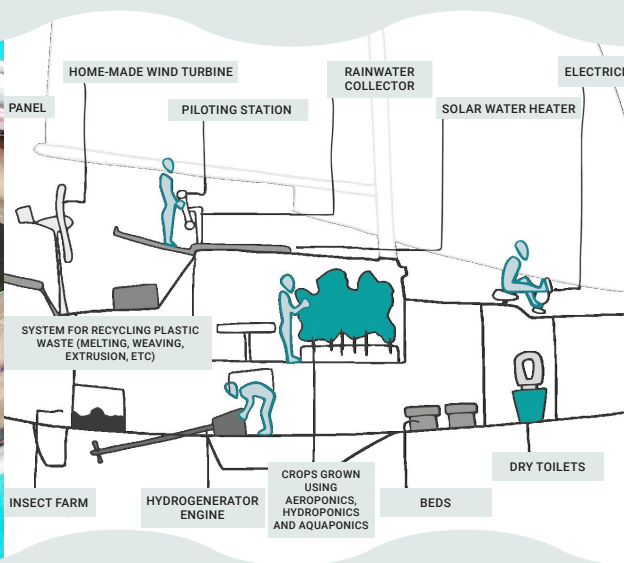

INDIA (2/2): The utopian city of Auroville.

THAILAND : Trying an insect-based high-protein diet!

SERIBUAT ARCHIPELAGO: Discovering the treatment of water using micro-algae.

ISLAND OF TAMBARAT: Time has come to try aquaponics-based agriculture.

INDONESIA: Crash-test for all the low-tech systems! Can a team of 5 people live on a desert island in total autonomy?
